

# Cinema in the Classroom

Learning science through films

A workshop for teachers on ICT based teaching learning designs

An initiative of Bichitra Pathshala &

Vigyan Prasara, an autonomous organisation under Department of Science & Technology, Govt. of India

Vigyan Prasara joins hands with Bichitra Pathshala to sparkle the classrooms of India with the pedagogy of moving images. School teachers in five districts of West Bengal have been handpicked for participating in five workshops titled

## Cinema in the Classroom: Learning science through films

In these two day long workshops, the teachers will observe and learn how moving images can help in deeper and joyful learning, how cleverly chosen film clippings can address diverse learning patterns and turn backbenchers into active learners, how these clippings can catalyse a participatory learning environment in the classroom. Teachers will create their own teaching learning designs using clippings of award winning films from the Vigyan Prasara archive.

The itinerary for the workshop is:

February 6 & 7

Bankura town in  
Bankura district

Hosted by Deptt. Of Education  
University of Bankura

Through these workshops, Vigyan Prasara and Bichitra Pathshala aspire to create master trainers who will induct their peers into the pedagogy of moving images.
