Concept note

Context

Coming down to the 21st century, Education is undergoing significant transformation driven by technological advancements, globalization and various social needs. Education has been one of the most debated subjects and plays a pivotal role in shaping a country's future. Irrespective of many constraints education has been confronting. 21st century has opened up a plethora of frontiers for education in pedagogical, technological, philosophical, psychological, human rights, gender parity, curriculum domains across the world. As well as contributing to the conversation about where Education can be uplifted from here, the goal of this seminar is to cater knowledge of the many facets that make up the concept of contemporary educational trends, issues and challenges among students, academicians and general public.

Mode of Paper Presentation:

Online & Offline

Objectives of the Seminar

- To develop conceptual ideas among the participants about the different issues related to education in the 21st Century.
- To enhance the level of understanding of the participants on diverse issues and challenges regarding education and to find effective solutions in the 21st Century.
- To address the challenges faced by the educational sector in the 21st Century.
- To create room for discussion on the newest developments in different domains of education to expand the horizon of education in the 21st Century.
